### Preserving Cultural Heritage in Texas Today

From 1845 to 1860, immigration to Texas increased significantly. Germans, Czechs, Irish, French, Canadians, Poles and others immigrated to Texas, bringing their own languages, food, traditions, customs, and heritage with them. While they often worked to *assimilate*<sup>1</sup> into American and Texan culture, they often also preserved their own heritage as they began their new lives in Texas.

In addition to the different immigrant groups who came to Texas, there were also Mexican Texans, or Tejanos, and American Indians already living in Texas. These groups have also worked to preserve and maintain their cultural traditions and heritage over time.

Today, many Tejanos, American Indians, and *descendants*<sup>2</sup> of immigrants in Texas still honor their own unique cultures and heritage in a variety of ways. In this assignment, you will choose one group of people from the options in the map below and learn about how people preserve the culture and heritage of this group in Texas today.

<sup>1</sup> Assimilate; totally adopt a new culture and way of life

<sup>2</sup> Descendant; A person in a family tree who came after the people before. A grandchild is a descendant of a grandparent, for example.
