Warm-up: Who's Who of the Great Depression

Unit 12: The Great Depression

Name: | Date: | Period:

What's in the Time Capsule from 1929 - 1939?

A **Time Capsule** is a collection of items stored and often hidden away to be opened at some point in the future. Time capsules contain things that are important to the people, location, and time that they were created. They are meant to give us a glimpse into what was important when they were created.

Picture it: You find a time capsule containing items from 1929 to 1939. *(Don't ask too many questions, just go with it.)* What items do you think you would find in it? Why do you think those items would be in the time capsule? What type of person would have included the items?
