Texas Today ***Exit Ticket***

Directions: The events below are out of order. Put the events into the correct chronological order by writing the number of each event in the blank provided.

For example: Write “1” next to the first event, “2” next to the second event, etc.

- A) Thousands of Anglo-Americans settled in Texas in the 1820s and 1830s in the colonies of empresarios like Stephen F. Austin.
- B) Cotton is the most profitable cash crop in Texas in modern times.
- C) The non-Indigenous population of Texas was small, and the economy was weak during the Spanish Colonial era and the Mexican National era.
- D) The Texas economy grew primarily due to Anglo cotton farms that were established under the Empresario System.
- E) Spain, and then Mexico, invited Anglo-American immigrants to settle in Texas, hoping to increase the population and improve the economy through cotton agriculture.
