

# ***Warm-up:*** Looking Ahead

## *Unit 1: Natural Texas and Its People*

Name:

Date:

Period:

Imagine you and a few of your friends are on a long-distance mission in outer space. Your mission is failing, you're running low on supplies, and you find a planet that looks similar to Earth. You land your spacecraft on the planet and disembark (*leave the craft.*) There are some similarities to our planet, but some differences too. Then, from a distance, you see people. They look a little different in their appearance and clothes. **What are you thinking and feeling right now? What are you wondering? What do you think might happen?**

*Write your response here*

## Looking Ahead *Exit Ticket*

<p>You are minding your own business, on a planet in a galaxy far from Earth. This is your home. The people here are your family and neighbors. A few of them you don't like very much (<i>you know who you are, Bob!</i>) Then, a strange group of people leave a strange looking aircraft that just landed near your community.</p> <p><b>What are you wondering?</b>  <b>What questions do you have for these people?</b>  <b>What are you feeling?</b>  <b>What do you think might happen?</b></p>	<p><i>Write your response here</i></p>
