## Step 3: Completing Your Slides

- Look at your assigned slides (refer to your slide #3)
- The directions for your slide are to the left of your slide.
- Follow the directions to complete your slide.
- You will present your information to the class. Review your information so you are comfortable with your part of the presentation.

# Grading Rubric

The grade is based on individual work. There is no group grade.  
Grades are earned according to the following criteria:

| Component                    | Description   | Points |
|------------------------------|---|--------|
| <b>Information</b>           | The information in your presentation should be accurate, informative, and as detailed as possible.                                      | 5      |
| <b>Material Presentation</b> | Each person in the group should have slides that are neat and organized.  | 5      |
| <b>Oral Presentation</b>     | Each person who presents should speak loudly, slowly, and clearly for their portion of the presentation.                                | 5      |
| <b>Engagement</b>            | When other students are presenting, you are listening closely, taking notes, and completing your work for each mission being presented. | 5      |

Your group presentation begins on  
the next slides.

Follow the directions on your  
assigned slides to complete your  
portion of the presentation.
